Eyelash Extensions

Novalash Eyelash Extensions are a glamorous way to extend the length and thickness of natural eyelashes, and are a practical, convenient and beautiful alternative to the daily use of mascara. Eyelash extensions are the first innovation in eyelash lengthening that can be worn daily, without nightly removal. Because each tapered, synthetic eyelash is bonded to a single natural eyelash, the final result is of effortless glamour and difficult to detect even close up. We customize your eyelash application to suit your lifestyle and desired look, and have a variety of eyelash lengths and thicknesses.
